

DOW CORNING

Invent your future with us™

As a world leader in silicon-based technology, Dow Corning Corporation unleashes the power of silicon. We do it by unleashing the innovation and skills of our employees. In fact, empowering our team members to discover and fulfill their true potential is an important part of our approach to business ... and an important driver of our success.

Do what you love, love what you do

You can be part of that success and part of the groundbreaking science behind it at a company that truly values your talent and contribution. When you work for Dow Corning, you can take your career to the next level. You'll be part of a company culture that values your skills and experience – and understands you have a life as well as a career. It's all very basic to us: if you're doing what you love, you'll do it well. And the people who work for Dow Corning love what they do. You will, too. All you need to supply is the ambition ... and we'll supply the opportunity.

See what's ahead

At Dow Corning, you're part of a diverse worldwide team dedicated to applying the science of silicon to solve customer challenges. And as a recent graduate you'll play an important role in this mission.
