

Landscape Construction Foreman

Experienced, knowledgeable foreman responsible for leading their crew in the construction and installation of new residential and commercial landscapes, hardscapes, paver patios, ponds/water features, retaining walls, etc. Must be able to manage work schedules, supervise crews in an efficient manner and maintain positive client relations. Candidate should have a Commercial Drivers License and a clean driving record. Position also requires experience with snow removal operations. Excellent wages and benefits

Preferred qualifications are 3-5+ years of experience with the following:

- Experience with both residential and commercial installation projects
- Ability to efficiently operate skid loaders and trucks with trailers
- Installation of natural stone and paver patios
- Installation of trees, shrubs and perennials
- Installation of segmental and natural stone retaining walls
- Ability to read site plans
- Good leadership skills and initiative
- Ability to effectively communicate with clients & management
