

Job Description:

Kiser + Vogrin Design is a small Land Planning and Landscape Architecture firm in Franklin, Tennessee. Located in the thriving Cool Springs area within 15 minutes of Downtown Nashville (recently declared the next “it” city by the NYT, lauded for its lifestyle and urban neighborhoods by the WSJ, listed among America’s most affordable cities, friendliest cities, and as a destination city for college graduates, and ranked the #1 City in the South by Bloomberg/Business Week) and Downtown Franklin (voted the greatest southern town by garden and gun magazine beating the likes of Asheville, NC, Charleston, SC, and Savannah, GA), KVD is in a prime location for a candidate to work and play.

Known for our creative design and innovative land planning, Kiser + Vogrin Design has the good fortune to be implementing some of the most significant developments in Middle Tennessee and beyond. We have a strong (and growing) resume across the spectrum of Landscape Architecture services from mixed-use, urban infill projects to small-scale private landscape design to campus planning to 1,000+ acre development. Perhaps more importantly, our core staff has become deeply rooted in Middle Tennessee and has been a part of some of the great recent projects that have shaped and guided the amazing growth of our region and of our home.

Entry level candidates should possess excellent technical skills including CAD, Photoshop, SketchUp and Hand Drawing (you know, the same stuff everyone else is looking for). Beyond that, we are looking for someone who is passionate about design. Candidates should be both creative and curious. We seek a great collaborators and a great communicators. We want someone with an unflagging work ethic and a willingness to work hard when things get a little tough, which happens from time to time. Even when things are tough, though, candidates should still be able to have fun. We hope that candidates will aspire to greatness from themselves and inspire greatness from those around them. All of that, and we still expect a successful candidate to be a little bit humble.

We are an open-minded group and we want candidates who are simultaneously willing to grow and improve and willing to initiate change to make KVD better.

If it sounds like we are asking for a lot, it's because we are! We want rock stars! If this sounds like you, please send qualifications and work samples to kvd@kiservogrin.com.
