

Callen Engineering, Inc., located in Spring Lake, Michigan, is currently seeking a creative and qualified individual to join our design team. This position will be involved in all aspects of plan development, project estimating, and client communication.

Callen Engineering provides full-service civil engineering and land planning services to municipal and private-sector clients since 2004, offering low impact design when practicable, believing all projects must consider the environment from concept through construction.

Responsibilities will include:

- Assisting in all stages of the design and bidding process, including CAD output, construction details and specifications, and municipal submittals, as well as producing high quality hand graphics.
- This position will assist the lead designer in client management and client satisfaction activities.

JOB REQUIREMENTS

Landscape Designer / Architect

To be considered as a candidate for the position, the following qualifications are required:

- Degree (or progress toward a degree) in Landscape Architecture or similar program
- Proficiency in AutoCAD is required
- Excellent hand graphic skills and rendering technique
- Proficiency in the use of Adobe Creative Suites and Microsoft Office
- Strong organizational and verbal/written communication skills
- Ability to multi-task in a fast-paced work environment

The ideal candidate will have a degree in landscape architecture and experience doing the following:

- Hand drafting and sketching
- Hand rendering
- AutoCAD and SketchUp
- Site measuring and analysis
- Drawing take-offs and estimates

A summer 2014 internship will be considered for the applicant with strong skills.

If you genuinely enjoy the field of landscape architecture, and would like to be a part of a small, dedicated group of people who share your enthusiasm for this work, please submit your resume to:
